

**Innovative "Green" Dry-Fall Coatings to Protect Your Future
Diamond Achievement Commendation
CW Matthews Contracting Co, Inc.
Highway and Heavy Construction Contractors
with 26 Hot Mix Asphalt Plants**

Painted with: **Highland High Performance HiTemp and Dry-Fall Coatings**

NAPA (National Asphalt Pavement Association) is an organization for asphalt producers who encourage their members to be good corporate citizens with neighbor-friendly operations.

Nearly 800 plants nation-wide are recipients of their Diamond Achievement Commendation for Excellence.

The qualification for the Diamond Achievement Commendation begins with a self-assessment of six aspects of plant/site operations: appearance, operations, environmental practices, safety, permitting and regulatory compliance, and community relations. Verification by an outside third party who is not associated with the company is part of the process.

It is very rewarding to look at the list of environment-conscience Diamond Achievement companies and know that **Highland High Performance HiTemp and Dry-Fall coatings are the coatings of choice for most of these facilities.**

James Williams, General Manager of Production, has been with CW Matthews for 34 years and a Highland customer for nearly 20: **"We have 26 HMA Plants and all have received the Diamond Achievement Commendation. All are protected with Highland HiTemp Coatings."**

Highland is always looking for better ways to maximize aesthetics, UV and corrosion protection and still maintain Low VOC and HAPs Free coatings. Highland's Dry-Fall **"Green"** Solvent-Borne coatings **save time and money** by reducing labor cost and down time up to 40% with fast spray application without paint overspray damage.

- Highland High Performance HiTemp and Dry-Fall Coatings are available in a range of temperatures from ambient to 1300°F.
- Highland Dry-Fall High Performance Solvent-borne Paint is 3-4 times longer lasting than conventional alkyd and water-borne paint!
- Spray application is up to 4 times faster to apply than brush and roll paint application saving time and money. Don't worry about paint overspray... it wipes off clean without chemicals or buffing.
- Maximum Corrosion and UV Protection! Low VOC & HAPs Free Dry-Fall Paint.
